From: Ascension Wisconsin Clinical Professional Development
Date: April 14, 2020
Subject: AW COVID-19 Surge Training and Competency Google Site Available

Ascension Wisconsin Clinical Professional Development has built a Google site at [AW COVID-19 Surge Training and Competency](#) that includes all the information contained in the AW Surge Staffing Training/Competency Plan Summary document, but presented in a much more user-friendly fashion.

Clinical staff can easily access the necessary training documents, resources and more at work or at home through their Ascension Google account. For ease of use, the site will be linked to the AW Coronavirus (COVID-19) Resource Document on PolicyStat.

This includes training resources for all clinical staff:

- Functional and Deputized roles
- Current staff
 - COVID-19 resources
 - Refresher information (i.e., vent training)
 - Practice changes due to surge (i.e., drip calculations)

Here are troubleshooting tips for swapping between personal/work email for easier access from home or on a cell phone:

- Sign out of all other Google accounts in your Google Chrome browser
- Sign into your Ascension Google account in your Google Chrome browser
- Copy and paste the link to your Google Chrome browser

An additional reminder was requested for leaders to enter their associates into the Ascension Wisconsin Incident Command Staffing documents via [this link](#) and complete the training column as soon as training is complete, per the memo from Bret Gerrits sent on April 6, 2020.

We hope this brings resources closer to those of you who need them. Please contact us via email at rachel.braasch1@ascension.org and mary.herman2@ascension.org with questions/concerns.

Thank you.
